July 2022

Request for Silent STA

Anointing Winds, Inc. (“Anointing”) is filing this request for special temporary authority for KFAW-LD to remain silent due to problems beyond the licensee’s control.

On July 20, a third-party damaged some of the transmission equipment for KFAW-LD, requiring the station to cease operations. Anointing is exploring options to restore the station to its licensed facilities as well as the events that led to the third-party damaging the equipment in the first instance, in order to avoid a repeat of the damage in the future. Anointing is eager to restore operations as quickly as possible, but given the recent damage, understandably it will take several months to address this problem and return the station to broadcast operations.
