

**KRFC**

**Amendment to License to Cover 0000193523  
Construction Permit #0000131663**

This report summarizes the documentation for the amended KRFC (#82804) license to cover for construction permit #0000131663. Due to an inadvertant oversight, the original proof was based on a previous construction permit and did not meet 85% RMS of the current construction permit. THat has been rectified and this amendment includes the modified proof of performance.

Documentation attached:

- (1) ERI antenna proof - 85.95% RMS of CP
- (2) Surveyors certification - No change in the installed antenna orientation is involved.
- (3) Installing engineer's certification
- (4) 60 dBu contour map utilizing amended measured pattern demonstrating 100% coverage of Fort Collins with the required 60 dBu contour..
- (5) The antenna utilized is an 8 bay EPA type 3 full-wave spaced as specified in the application and CP (ERI LP-8C-DA).

The constructed facility complies with all of the construction permit conditions.
