

**PUBLIC FILE EXHIBIT**

Television Station KQDS-TV, Duluth, Minnesota, Facility ID No. 35525 (the "Station") timely uploaded a number of children's programming reports and issues/programs lists during the license term and then subsequently corrected or amended them. Consequently, all of them were uploaded timely. Certain certifications of commercial time limits were uploaded late due to technical difficulties and one EEO annual employment report was uploaded one day late because of technical difficulties.

In addition, while the Station uploaded information regarding political advertising to the Station's online public inspection file, some materials appear to have been uploaded untimely. However, the Station believes that some materials were back-dated when delivered to the Station but were timely uploaded as soon they were received.
