

Exhibit

Amendment re Silent Status of K30JM-D

Scripps Broadcasting Holdings, LLC, licensee of K30JM-D, Colorado Springs, Colorado (the “Station”) hereby amends its pending license renewal application to inform the Commission that the Station has resumed operations. The Station went silent on or around May 6, 2022 when a windstorm resulted in a power outage and the station’s ATSC 1.0 modulator was lost. The station did not have a backup modulator and so was forced to go silent. While the Station was silent it switched out its equipment and transitioned to the ATSC 3.0 standard (*see* FCC File No. 0000179147 approving the NextGen modification of license). The Station returned to the air on August 2, 2022 and is now airing ATSC 3.0 content from evoca.tv.
