AUGUST 22, 2022

TO WHOM IT MAY CONCERN AT THE FCC:

The subscriber, Wifredo G. Blanco-Pi, is licensee of WAPA-AM Ponce, P. R. (formerly WISO-AM) and of its translator, W268DJ.

I am also a licensed professional engineer PE-5130 (Puerto Rico).

As required per CP to modify antenna at W268DJ (BPFT-20281102AAL, as modified) I monitored the signal, the antenna impedance and antenna current of WAPA-AM 1260 kHz. (former WISO-AM) before and after changing the FM translator antenna.

The operational parameters and signal of WAPA-AM (WISO-AM) Ponce, P. R. has not been altered by changing the FM antenna from a one bay CL-FM to the new one bay CUSTOM MADE PSI LOW POWER SLANT V FM directional antenna (PSIFML-1A-DA).
