## **Explanation of Translator License to Cover Filing & Compliance with Special Operating Conditions or Restrictions.**

1. The applicant certifies coordination with other users of the site to reduce power or cease operation as necessary to protect persons having access to the site, tower or antenna from radiofrequency electromagnetic fields in excess of FCC guidelines.
2. The applicant certifies that before Program Tests commence, sufficient measurements have been made establishing that the operation authorized in this Construction Permit is in compliance with the spurious emissions requirements of 47 C.F.R. Section(s) 73.317(b) through 73.317(d). All measurements have been made with all stations simultaneously utilizing the shared antenna. These measurements have been submitted to the Commission along with the FCC Schedule 350-FM application for license. (*see attached Spurious Emissions Study*)
3. The applicant certifies that prior to commencing Program Test Operations, the applicant has on file an Application for an FM Translator License pursuant to 47 C.F.R. Section 74.14.
4. The applicant acknowledges that subject to the provisions of the Communications Act of 1934, as amended, subsequent acts and treaties, and all regulations heretofore or hereafter made by this Commission, and further subject to the conditions set forth in this permit, the permittee is hereby authorized to construct the radio transmitting apparatus herein described. The applicant certifies that installation and adjustment of equipment not specifically set forth herein has been made in accordance with representations contained in the permittee's application for construction permit except for such modifications as are presently permitted, without application, by the Commission's Rules (See Section 83.875).
5. The applicant acknowledges that pursuant to Section 73.3598, this Construction Permit is subject to automatic forfeiture unless construction is complete and application for license is filed prior to expiration. In this instance, construction has been completed and an application for license filed prior to the expiration of the Construction Permit.
6. The applicant certifies that equipment and program tests have been conducted pursuant to Sections 73.1610 and 73.1620 of the Commission's Rules.
