

Waitt Broadcasting, Inc.  
Station K30BP-D (Fac. ID 39666)  
Norfolk, NE

EXTRAORDINARY CIRCUMSTANCES WARRANTING STA

On August 11, 2022, pursuant to a Media Bureau inquiry concerning the operation of low power station K30BP-D, licensee Waitt Broadcasting, Inc. ("Waitt") submitted a Notification of Temporary Cessation of Operations as of August 10. The station has been silent ever since. At the time, Waitt committed to expeditiously making all filings and providing all information necessary to enable K30BP to resume broadcast operation at the earliest time in conformance with the Commission's Rules.

Now, following informal discussion with Bureau counsel, Waitt seeks Special Temporary Authority to re-commence K30BP operation on Channel 23. Also being filed is a Displacement Application seeking Commission authority for the station to broadcast on Channel 23. Waitt is prepared to complete construction of the proposed facility pursuant to the displacement application as soon as it is permitted to do so.

Accordingly, for these reasons, Waitt respectfully submits that grant of this STA will serve the public interest.
