Renewal Certification

Applicant requests forbearance in the late filing of this renewal application. Applicant only recently came into ownership due to the death of her spouse. Lacking knowledge of the renewal deadline, applicant was made aware of the date to file upon receipt of a reminder email from the Video Division dated August 15, 2022. Applicant took immediate steps to correct the oversight which included searching all files and stored documentation and the necessity of securing an FRN password reset due to the lack of documentation which was accomplished this date with the assistance of the LMS Customer Support desk.
