In re: WXBK(FM), Newark, NJ
Facility ID No. 20886
Application File No. 197155
Program Test Authority

Dear Applicant:

This letter is in reference to WXBK's request for program test authority ("PTA") filed August 8, 2022 and the simultaneously filed application for license to cover Construction Permit File No. 0000131143. The PTA request included exhibits demonstrating compliance with special operating conditions regarding the directional antenna.

A review of WXBK's request for program test authority reveals that the facilities were constructed pursuant to the terms and conditions of Construction Permit File No. 0000131143, and the provisions of 47 C.F.R. § 73.1690(c)(2). Accordingly, Program Test Authority IS **HEREBY GRANTED** to commence operation pending further action on WXBK's license application. The maximum effective radiated power is 40 kilowatts (H&V) and the transmitter power output is 24.0 kilowatts.

Sincerely,

Rodolfo Bonacci
