B. W. St. Clair

W05CO
FI 66995

Amendment to LMS File # 0000122336

There has been no Silent STA filing for W05CO.
Non-Discriminatory Advertising Sales Agreements was changed to yes.

WCTU-LD
FI 57865

WCTU-LD was displaced during the 2018 LPTV/Translator Displacement Filing Window.
The station filed for silent status LMS File # 0000118806 effective 7/3/2020.

At this time, the station has been silent for less than 365 days. The Applicant has filed for a
Construction Permit Extension LMS File # 0000139291.

Edge Spectrum, Inc. is planning an extensive DTS / ATSC 3.0 network of a large number of their
licensed and granted construction permits. Edge expects to build within the Construction Permit
constraints as granted by the Commission.

Edge is fully committed to this plan and has placed orders for transmitters and antennas and is
working on a roll out schedule to build out actual Construction Permits.

To the best of my knowledge and belief all stations have been operating operating within the
rules.

Sincerely,

Susan Hansen
President / Consultant
