

## **W233AH SILENT STA REQUEST**

Licensee Radio Catskill, Inc. continues to seek a permanent site from which to operate translator station W233AH. It lost its lease on its previous licensed site and went silent June 10, 2021, but returned to the air under STA June 8, 2022 under STA facilities authorized in LMS application 0000193008.

That temporary facility is no longer available to W233AH, which now requests Special Temporary Authority to remain silent for a period of no longer than six months while it continues to seek a permanent facility.
