

Multiple Ownership Compliance

Neither the Assignee nor attributable parties to the Assignee have current attributable interests in any U.S. broadcast stations. As noted, this application is one of four assignment applications being filed concurrently by the Assignee and its affiliates for Commission consent. Each of the four assignment applications are for radio stations listed in distinct Nielsen Metro markets.

For this application, the Assignee, ARG of Fort Wayne LLC, proposes to acquire the existing combination of stations licensed to the Assignor, Adams Radio of Fort Wayne, LLC, with no additional attributable broadcast interests in the market. The following full-service stations licensed to Adams Radio of Fort Wayne, LLC, to be acquired by the Assignee, are listed as part of the Fort Wayne, Indiana Metro market:

1. WJFX(FM), New Haven, IN, Facility ID 1065
2. WBTU(FM), Kendallville, IN, Facility ID 22106
3. WXKE(FM), Churubusco, IN, Facility ID 22287
4. WWFW(FM), Fort Wayne, IN, Facility ID 56765

Pursuant to the Commission's Rules, a single entity may have attributable interests in four same-service stations (and up to six stations total) in a radio market with between 15 and 29 radio stations. *See* 47 CFR Sec. 73.3555(a)(1)(iii) ("In a radio market with between 15 and 29 (inclusive) full-power, commercial and noncommercial radio stations, not more than 6 commercial radio stations in total and not more than 4 commercial stations in the same service (AM or FM)").

Nielsen ranks the Fort Wayne Metro Market as #116. *See* attached Radio Online, Nielsen #116 Fort Wayne. The list of "All Stations in the Ft. Wayne, IN MSA" shows 27 radio stations. *See* Ft. Wayne, IN Metro Survey Area Overview. Consequently, this Metro Market has well over the 15 radio stations required for an interest in four total stations, four in the same service, thus permitting the continuation of this combination of stations.

Totals are Persons 12+, Mon-Sun, 6am-midnight

This profile contains an quarter hour rating (AQH) share of persons, ages 12+, Monday through Sunday in the Metro Survey Area.

A share is the percentage of those listening to radio in the MSA who are listening to a particular radio station.

Average Quarter-Hour Persons (AQH Persons) is the average number of persons listening to a particular station for at least five minutes during a 15-minute period.

[AQH Persons to a Station / AQH Persons to All Stations] x 100 = Share (%)
