

Other Authorizations

Hubbard Broadcasting, Inc. (“HBI”), through its wholly owned licensee subsidiaries, indirectly controls the following full-power broadcast television and radio stations. The instant application would make no change in the ownership or control of any of the HBI licensees because HBI would own 100% of all of these licensees before and after the assignment of licenses proposed in this application. Similarly, the proposed assignment of licenses would make no change in the officers or directors of HBI and its licensee subsidiaries, nor would the assignment of licenses make any change in the ownership or control of HBI.
