RE: BLSTA20220401AAE Stay Silent Authorization

KXYS-LP, Marysville  
Facility ID: 197192  
FRN: 0030178776

Pursuant to FCC Regulations, Part 73, SS, 73.1740, we hereby request an extension of the Special Temporary Authorization to Stay Silent (BLSTA20220401AAE, attached) granted June 10, 2022.

This STA (BLSTA20220401AAE) was entered via CDBS. When we attempted to file the STA Extension via the link to this file LMS last week, we received an error message from the website. We attempted to file via e-mail.

Via e-mail reply, we have since been directed by Audio Division staff to "submit an Original Silent Request, and include an exhibit to explain that it should be treated as an extension." This is that exhibit. We ask that this be considered timely filed.

At this time, we have identified several potential transmitter site locations, and are attempting to confirm their viability regarding the lower first-adjacent channel we must protect, and the availability for our use, along with costs and

other financial considerations necessary to secure the transmitter site for our use, and return to the air.

Please feel free to contact me with any questions. I am the Secretary of Yuba-Sutter Community Media, Inc, Licensee of KXYS-LP, Marysville.

Please note that we have submitted an administrative update via LMS to update the mailing address for correspondence.

It is now 209 East 12th St., Marysville, CA 95901.

Thanks much,

Ted

Ted Langdell
