

### **Request for Special Temporary Authority Exhibit**

Low Power Television (“LPTV”) television station WEEG-LD, Philadelphia, Pennsylvania (Facility ID No. 167606, “WEEG”), respectfully requests an extension of its existing special temporary authority (“STA”) (LMS-0000093778 as most recently extended by LMS-0000193348) to enable the station to continue to operate. Granting this STA request will help WEEG migrate from its pre-auction Channel 48 to its permitted displacement Channel 21, which is in line with the Commission's policy about helping LPTV stations that the Commission displaced through the spectrum auction repack process. Due to long pending matters at the FCC, the FCC granted a tolling of the Channel 21 displacement CP until 666 days after the end of the litigation as the heart of the FCC matters. As a result, the STA will also permit the station to continue operating while the FCC settles pending matters.
