

**Silent Special Temporary Authority Request**

FM translator station W280EC, East Concord, New Hampshire (Facility ID No. 145612) (the “Station”) respectfully requests special temporary authority to remain silent for the maximum period allowable, so that the Station may repair its tower. The Station’s tower was blown down after a severe windstorm on December 23, 2022. The antenna remained attached to the tower, however. Accordingly, the Station did not cease operating until January 7, 2023, once it was clear that repairs would not be completed quickly.
