Facility ID Number 68009

Request to Extend Engineering STA

Eagle Broadcasting Group, Inc. (the “licensee”), licensee of WTZP-LD, Portsmouth, Ohio (Facility ID No. 68009) respectfully requests extension of the STA initially granted in LMS File Number 0000178481 and most recently extended in LMS File Number 0000195580. The licensee has all equipment on site necessary to build out its final displacement facilities, but nonetheless needs an additional period of special temporary authority prior to constructing its final displacement facilities.

The licensee respectfully submits that an extension grant will serve the public interest given that it will allow the licensee to continue serving the community while the station completes construction of its final displacement facilities.
