Subject: Spirit Mountain

Dear Faron,

On December 30, 2022, I accompanied Faron Eckelbarger to the Spirit Mountain Radio Tower location at 35° 14' 47.7" N Lat., 114° 44' 36.9" W Lon. to confirm a directional antenna azimuth.

The antenna was adjusted to 162° azimuth as read by a Compensated Compass. The error of accuracy is less than 0.6°.

Thank you,
ARQ Engineering, LLC.
