

***OTHER BROADCAST AND NON-BROADCAST EFFORTS  
2022***

***“WNCF TRANSMITS ON RF CHANNEL 31 BUT IS KNOWN TO ITS VIEWING AUDIENCE AS CHANNEL 32. THE LATTER IS USED TO IDENTIFY THE PROGRAMS AIRING ON EACH OF ITS MAIN AND MULTICAST STREAMS.***

During the broadcast season, WNCF aired 4 hours of E/I programming each week. As a rule, the station does not air any local commercials in any syndicated E/I, core programming that airs on the station.

Because of Covid-19 restrictions and guidelines that were still in place at WNCF during most of this broadcast year, visitors were not allowed into the station’s studios, and station personnel couldn’t visit local school classrooms. We did highlight children in the community and their accomplishments during our newscasts, but have not been able to return to all of the community projects and educational outreach activities that we were involved in before the on-set of Covid. We plan to get more involved this year, once it is safe to start them up again.
