

## STA Exhibit

Gray Television Licensee, LLC, licensee of WBXM-CD, Montgomery, AL (FID 70412), requests authority to operate the facility specified in the construction permit file no. 210340 (Modification CP) at reduced power. Delivery of the permanent transmitter has been delayed, therefore, Gray built out the facility specified in the Modification CP using a temporary transmitter. While using the temporary transmitter, the station cannot operate at its full authorized power. Therefore, Gray requests authority to operate the station at a reduced power pending delivery of the final transmitter.
