

**Engineering Statement  
Minor Modification Application  
K18DD-D Camp Verde, AZ  
Channel 18  
February 24, 2023**

The purpose of this application is to increase the effective radiated power (ERP) from 2.5 kW to 13.8 kW. All other parameters will remain unchanged. An interference analysis using the FCC's TVStudy software with the default settings indicates no new interference above the de minimis limit will be caused to other stations. A copy of the TVStudy interference analysis showing compliance is attached.
