

## **Compliance with Special Operating Conditions**

The KAWR Construction Permit (File Number 0000210543) contains Two Special Operating Conditions:

1. *The permittee/licensee in coordination with other users of the site must reduce power or cease operation as necessary to protect persons having access to the site, tower or antenna from radiofrequency electromagnetic fields in excess of FCC guidelines.*
2. *This is a Section 73.215 contour protection grant as requested by this applicant*
3. *Permittee has specified use of the antenna listed below to demonstrate compliance with the FCC radiofrequency electromagnetic field exposure guidelines. If any other type or size of antenna is to be used with the facilities authorized herein, THE AUTOMATIC PROGRAM TEST PROVISIONS OF 47 C.F.R. SECTION 73.1620 WILL NOT APPLY. In this case, a FORMAL REQUEST FOR PROGRAM TEST AUTHORITY must be filed in conjunction with FCC Form 302-FM, application for license, BEFORE program tests will be authorized. The request must include a revised RF field showing to demonstrate continued compliance with the FCC guidelines. Nicom BKG77-2-HW (EPA Type 2: Opposed V dipole), two sectioned, 0.5 wavelength spaced antenna.*

Educational Media Foundation ("EMF") complies with, or agrees to, the conditions as follows:

1. EMF in coordination with other users of the site agrees to reduce power or cease operation as necessary to protect persons having access to the site, tower, or antenna, from radiofrequency electromagnetic fields in excess of FCC guidelines.
2. EMF acknowledges KAWR is a contour protection facility as requested by EMF
3. EMF confirms the antenna in use is indeed a Nicom BKG77-2HW (EPA Type 2: Opposed V dipole). Therefore, no further action is needed.
