

KMVU-DT (FID 32958) / KFBI-LD (FID 130106)
Medford, Oregon
Request for Special Temporary Authority (“STA”)

KMVU-DT and KFBI-LD, Medford, Oregon, licensed to Imagicomm Medford, LLC (“Licensee”) had its emergency alert system (“EAS”) fail this week. Both call signs share one EAS system. Licensee hereby seeks an STA regarding its inability to comply with FCC Rule 47 CFR Part 11 until the problem can be resolved.

Licensee does not expect to have a replacement on site and functioning for several weeks. However, if an actual emergency were to occur, Licensee will contact our news partner and arrange to go live if necessary, and/or instruct our viewers to tune into Television Station KOB-TV, Medford, OR (FID 8260) for emergency information.

As soon as the replacement has been installed, Licensee will resume its ability to comply with the EAS rules as required.

Due to these circumstances which are beyond Licensee’s control, we hereby request an STA for KMVU-DT and KFBI-LD.
