

**Modify LPFM Station WGRN-LP
Facility ID No. 196852
Channel 231-L1 - 94.1 MHz - 0.100 kW
Columbus, Ohio**

Justification for Request for Silent STA

Central Ohio Green Education Fund, ("COGEF"), licensee of LPFM station WGRN-LP was required to vacate the licensed tower site and remove the tower. COGEF was granted LMS construction permit 0000208165 for WGRN-LP specifying operation on Channel 220L1 from a different existing tower site on January 30, 2023. The equipment has been ordered and construction should be completed over the next few weeks. COGEF expects to file the WGRN-LP license to cover and commence operations from the new tower site by April 30, 2023.
