

**Greer Christian Radio, Inc.**  
**WCGF-LP, Greer, SC, Facility ID 197418**  
**Supplemental Temporary Authorization Request**

Greer Christian Radio, Inc., Licensee of WCGF-LP (Greer, SC, Facility ID 197418) respectfully requests authorization to operate from an alternate site at reduced power on a temporary basis while completing a facility modification application and authorization.

The applicant has been diligent in seeking authorization from the Commission to secure final authorization for a new facility (reference LMS File Number 0000203186), including correspondence and telephone conversations with Commission staff as it seeks a solution that fully protects 2<sup>nd</sup> adjacent WSHP-FM. The applicant believes that these issues can be resolved in accordance with Commission rules and in a timely fashion should this request be granted.

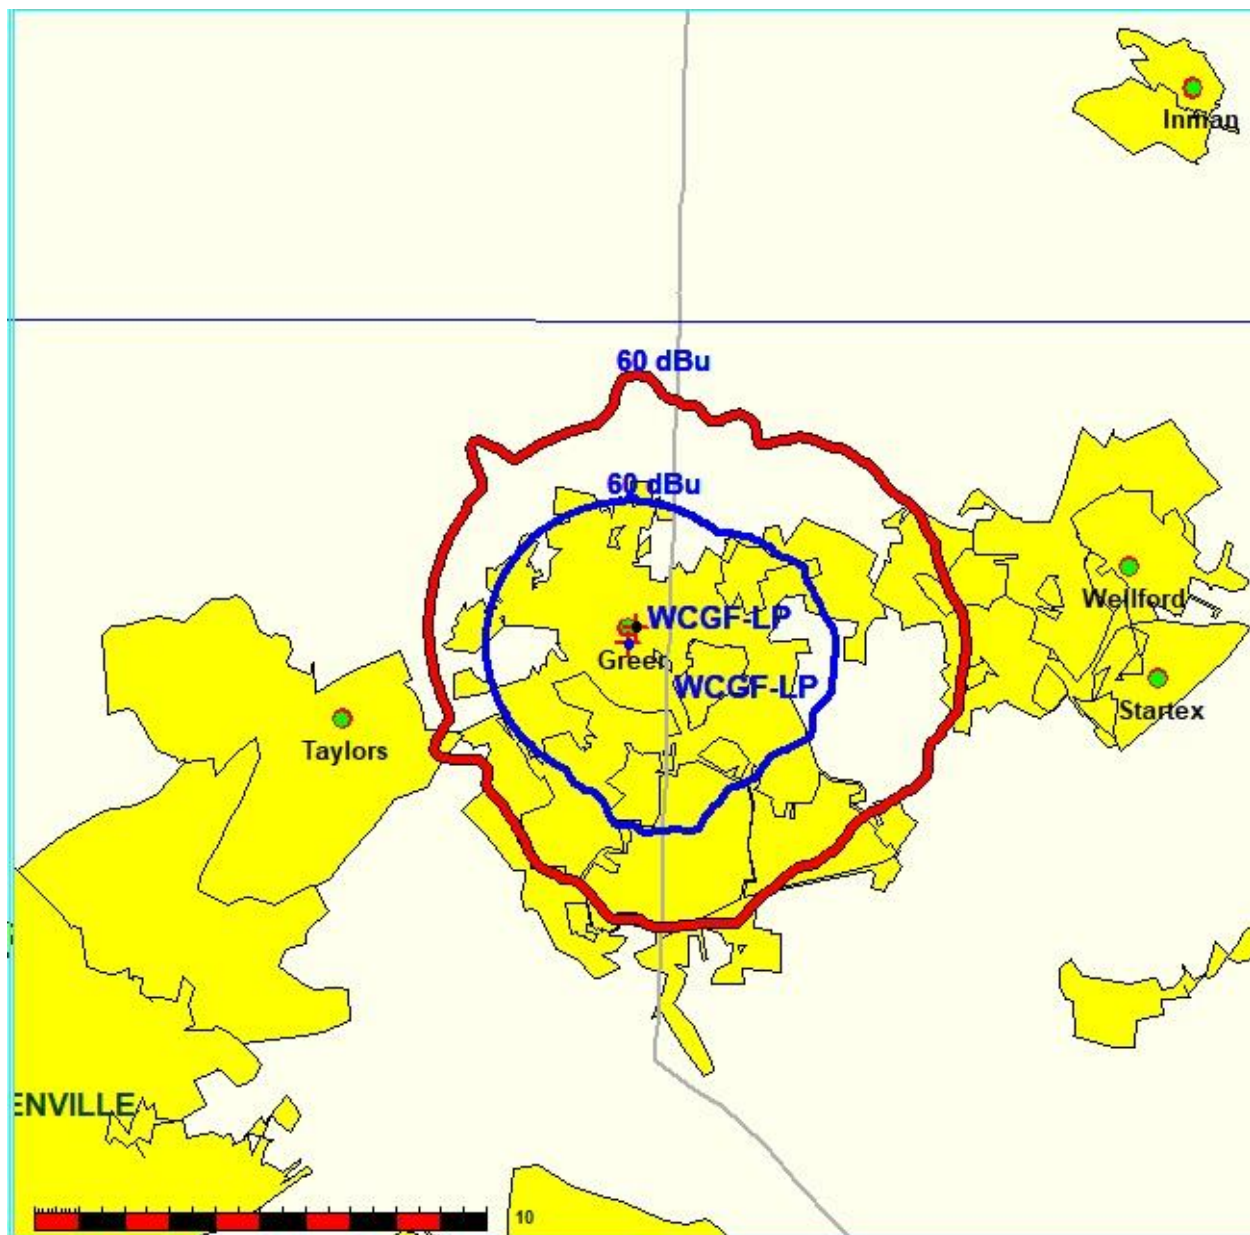

WCGF-LP has been operating under supplemental temporary authorization as of September 1, 2022.

The applicant requests authorization to continue to operate using the following technical data:

Channel:	282 (present authorized channel)
Location:	34 56 08.00 N, 82 13 37.00 W, NAD 83
Site Elevation:	300 m
Radiation Center (AGL):	3.6m
Radiation Center (AMSL):	303.6m
Effective Radiated Power (H & V):	0.01 kW (10 W)
Mounting structure:	Pipe
Location:	Roof of locked building inside fenced compound

Below is a map of the currently authorized 60 dBμ contour (red) and the proposed temporary facility's 60 dBμ contour (blue), confirming that the temporary facility will provide service to much of the authorized service area without exceeding the authorized contour.

The applicant plans to complete the permanent facility in an expeditious manner, but requests that it be granted an authorization that allows it 6 months to complete in the event of further unforeseen circumstances.
