1-413-237-3229

To Whom It May Concern,

I, Christopher S. Tracy, Broadcast Engineer, has been retained by Emmanuel Communications, Inc., to fulfill Construction Permit BNPFT-20171220AAV for Facility ID 200926 (W266DK).

Upon completion of the antenna installation, I measured Tower Impedance using a Delta OIB-3 Impedance Bridge and found that the Impedance Measurements had not changed by 2%.

As a result, Paragraph 3 of "Special Operating Conditions & Restrictions" of CP BNPFT-20171220AAV, is satisfied and no Form FCC 302-AM need be filed.

All other Conditions of the CP were fulfilled.

Respectfully,  
Christopher S. Tracy

Broadcast Engineer
