

WLXI, Greensboro, NC (Fac. Id. 54452)
Modification of License Application - Channel Sharing Agreement
Modification (Schedule B)

Explanation

This modification of license application is filed on a contingent basis for purposes of beginning the FCC's process to change WLXI(TV)'s channel sharing to a new sharer by first removing WLXI(TV) from its current channel share arrangement with WUNC, Chapel Hill, NC (FID 69080).

WLXI(TV) is currently one of two co-owned sharee stations¹ in a channel share with WUNC, and has executed a First Amended and Restated Channel Sharing and Licensing Agreement wherein the parties contemplate a change to have WLXI(TV) end channel sharing with WUNC and begin sharing with WUNL-TV, Winston-Salem, NC (FID 69360)², contingent upon FCC approvals for the channel share change and various other filings, terms and conditions. This application is the initial step to remove WLXI(TV) from the existing channel share arrangement so that it can then file the next application for minor modification of license to obtain approval for the new channel sharing arrangement.

¹ The other sharee station is WRAY-TV, Wilson, NC (FID 10133). Both WRAY-TV and WLXI(TV) are owned by Radiant Life Ministries, Inc.

² Both WUNC and WUNL-TV are owned by the University of North Carolina.
