

**WLZH-LD, Red Lion, PA (Fac. Id. 57539)**

**Renewal Application**

**Operating Status & Minimum Operating Schedule Explanation**

After substantial complaints of interference to New York public safety channels, Zebra Media, LLC obtained a construction permit (LMS0000146800) to relocate the station and ceased operations on July 25, 2022 when its antenna was removed pursuant to Silent STA 0000198342 (later extended). After substantial planning, negotiation of tower lease rights and finalization of a lease, and the purchase and delivery of new equipment including fiber optic cable, construction is nearly complete. Testing for land mobile interference due to use of TV channel 14 is the final step to recommending operations, and that process has begun. For the above reasons, WLZH-LD is not currently on the air and during its period of required silence to protect public safety frequencies in New York, was unable to operate for minimum required periods. When operations resume at its new location, WLZH-LD will amend the renewal application to report that status.
