The station required a complete overhaul of its technical facilities. The station completed the technical upgrades necessary to allow the station to operate full time in September 2021. The station has been operational continually since that date.

The stations listed below were acquired by the present licensee on 2/9/2021 (See File No. BAL - 20201104AAJ). Thus, all certifications made for this station are from this date forward.

These stations are commonly owned with the full power station it rebroadcasts, thus no written rebroadcast consent is needed.

- K14IO-D (FID 28499)
- K18MO-D (FID 28491). When acquired by Gray on February 9, 2021, this station was operating. The previous licensee had filed a silent STA request indicating that the station went silent on 7/29/2020 and had not filed a resumption notice prior to closing. Gray operated this station until May 31, 2021 when it was temporarily taken silent while its programming streams were reconfigured. Gray inadvertently failed to file a silent STA for the period the station was off the air. The station resumed operations on September 21, 2021 and Gray filed a resumption notice. The station has not been silent for longer than 12 months while under Gray's ownership.
