Operations Certification

K31KH-D (the “Station”) was acquired by the current licensee on April 26, 2021. The current licensee has reviewed the station’s records and the applications in the FCC’s LMS system and notes that the former licensee ceased operations of the station two times during the renewal term due to issues related to equipment failure.

The initial request for Silent STA was filed on January 8, 2016 (FCC File Number 0000007697) due to a failure of its studio-to-transmitter link equipment. After installing new equipment and resolving the technical problems, the former licensee recommenced operations on November 14, 2016.

The next request for Silent STA was filed on December 23, 2016 (FCC File Number 0000019285) due to transmitter issues which caused the station to go silent on December 16, 2016. Operations were resumed on March 21, 2017 and the Commission was duly notified (FCC File Number 0000022837).
