W265DR Minor Modification

Reason for Withdrawal of Application

Loud Media LLC is hereby withdrawing its Minor Modification Application for W265DR. Loud Media LLC also owns WPLA (FM) which was recently granted a construction permit for a new tower site and city of license. That upgrade will effectively displace translator W286DT and with the lack of open frequencies in the area, the frequency this application originally applied for is the only practical option for W286DT to utilize. Therefore, Loud Media is withdrawing this application for W265DR simultaneously with Mid Century Radio LLC filing its displacement application for W286DT.
