

MINOR CHANGE REQUEST
Translator K281DH Durant OK
FACID 147249
License LMS- 0000214277

This instant request proposes to modify this translator license to maximum allowed Effective Radiated Power on the authorized operating channel at the authorized location and height. There is no interference created as a result of this minor change to any facility in the allocation picture.

The map below demonstrates contour protection compliance.

The translator is a non-fill in translator for the primary station, KZRC, whose licensed 60dBu (50,50) contour is shown in black.
