

### **Request for Extension of Time to Consummate**

TelevisaUnivision, Inc. (“TelevisaUnivision”), parent company of the assignor and assignee associated with the above-referenced assignment application (the “Assignment Application”), respectfully requests an extension of the period authorized for completion of the closing and notification of consummation of the *pro forma* assignment of the license for WSTE-DT (Ponce, Puerto Rico; Fac. ID 60341) and confirms that all the pertinent information included in the Assignment Application remains current. The application requesting the Commission’s consent to the proposed assignment was granted on June 16, 2022, and the consummation deadline initially was extended until December 13, 2022, and most recently extended until June 12, 2023.

Pursuant to the grant of the Assignment Application, the license for WSTE-DT is to be assigned from WLII/WSUR License Partnership, G.P. to WSTE, LLC. Both entities currently are controlled by TelevisaUnivision. Pursuant to a separate transaction that is the subject of a pending transfer of control application, TelevisaUnivision has applied for approval to transfer control of WLII/WSUR License Partnership, G.P. to an unrelated third party, HMTV DTC, LLC (Lead File No. 0000201480). TelevisaUnivision now intends to consummate the *pro forma* assignment of WSTE-DT to WSTE LLC simultaneous with the closing of the transaction with HMTV DTC, LLC. Because that transaction remains pending before the Commission (including a referral to the Executive Branch agencies in light of an associated Petition for Declaratory Ruling under Section 310(b)(4) of the Act), TelevisaUnivision requires a further extension of the period for the consummation of the *pro forma* assignment of WSTE-DT.
