#### Resumption of Operations Notification

University of Utah (the "Station"), Roosevelt, UT, respectfully submits this notification of Resumption of Operations to its as-licensed parameters as of Wednesday, June 14, 2023. On May 16, 2023, the Station experienced a failure of a cooling fan at its remote transmitter site that rendered its licensed transmitter inoperable. After waiting for the snow-pack to sufficiently retreat, the Station was able to make the necessary repairs and return to as-licensed, full power service.

Accordingly, with KUOU's return to full power service at its licensed site and parameters, the Station can now return to its as-licensed FM parameters per BLED-20101108AEH.
