

STA Exhibit

Educational Media Foundation (EMF) requests special temporary authority to operate FM NCE station KYDO at reduced power. KYDO Campo, CA (Facility ID: 63471) is operating at reduced power as a result of a transmitter power module failure. A new power module has been ordered from the manufacturer, but delivery has been delayed. As a result, it is uncertain exactly how long it will take until EMF can restore KYDO to full power operations, but EMF will proceed expeditiously once the power module has been repaired and returned to the site.

A grant of this request is in the public interest as it permits KYDO to continue to provide its unique programming to its listeners.

KYDO operating parameters:

| | <u>Licensed operation</u> | <u>STA operation</u> |
|-----------------------------|-------------------------------|-------------------------------|
| Coordinates (NAD83): | 32 40 46.1 N 116 30 59.8 W | 32 40 46.1 N 116 30 59.8 W |
| ERP: | 25.0 kw | ≈ 22 kw |
| TPO: | 5.3 kw | ≈ 4.7 kw |
| Antenna HAAT: | 31 m | 31 m |
| Antenna COR AMSL: | 1001 m | 1001 m |
| Antenna COR AGL: | 24 m | 24 m |
