

Statement Regarding Resumption of Operations - Parameters

KRHT-LD

Facility ID 130534

Niculina Hanson, Owner

FRN: 0031623259

Niculina Hanson, licensee of low power television station KRHT-LD, Redding, California respectfully requests Special Temporary Authority to operate KRHT-LD with reduced power at 1.6kw ERP:

After repeated attempts to resume operations pursuant to licensed parameters, it was evident the transmitter was not going to continue operating and was removed and replaced with a backup, lower power transmitter resulting in lower ERP at 1.6kw ERP.

All other parameters remain the same, this is a temporary substitution of transmitter only.

A resumption of operation notification was submitted on 8/1/23 (see LMS File 0000218754) stipulating the reduced power upon resumption

It is anticipated that licensee will be able to secure a replacement transmitter and return to full power within six months.

Operating in the interim with 1.6kw ERP will allow the station stability and to continue service to the community.
