**Notification of Resumption of Licensed Operations and
Request for Withdrawal of Silent STA Request**

As of August 2, 2023, W07AS-D's full licensed operations have been restored. Accordingly, the licensee respectfully requests withdrawal of the pending STA request in LMS File No. [0000218603](#).

As described in the STA request, W07DS-D ceased transmitting due to a failure with the translator's amplifier. The damaged equipment had been sent off to the manufacturer for repair. The repairs have been completed and the station has resumed normal, licensed operations. The pending engineering STA in LMS File No. [0000218603](#) is moot.
