

Reasons for Minor Mod. of License App. W17DL-D

TV Red de Puerto Rico is requesting a Minor License Modification of LPTV Station W17DL-D, Toa Baja, Puerto Rico, Facility ID: 181820, File Num. BLANK-0000130803, to change antenna system and increase ERP, a change that will improve the station coverage; no change in site or RC height is proposed.

Since no change in site is proposed, there will be a complete overlap of service contours. A copy of the TVStudy, performed with a L-R cell size of 0.5 km. and terrain profile increment of 0.05 km. is included. As shown in the TVStudy, no adverse interference is caused to any other TV facility, other than to station W17EP-D, excluded in the TVStudy, a co-channel CP also owned by TV Red de Puerto Rico, set to expire and cancelled on August 6, 2023; thus, no interference issue will arise from this proposal.
