

## WASR(AM) REQUEST FOR SPECIAL TEMPORARY AUTHORITY

Winnispesaukee Radio Station, LLC, license of Radio Station WASR(AM), FI 54889, Wolfeboro, NH, respectfully requests an extension of the STA granted to the station for the next 180 days to operate daytime with 1 KW.

For various reasons, the licensee has decided to replace WASR's AM tower. To implement this plan, the licensee has obtained the necessary zoning approvals and has hired a consultant for the ground system and engineering consultants. Further, the tower is ready to ship and the licensee is working with the antenna company.

Operating with the lower power will allow the licensee to save on power costs while it implements the tower replacement.

Consequently, the licensee respectfully requests a 180 day extension of the instant Special Temporary Authority.
