

## **Amendment to License Renewal Application**

UniMas Chicago LLC, licensee of WXFT-DT, Facility ID No. 60539, Aurora, Illinois (“Station”) respectfully submits the instant amendment to the Station’s license renewal application to revise its response to the Online Public Inspection File (“OPIF”) Certification.<sup>1</sup> It was recently discovered that, although the Station timely prepared its public file report for the August 1, 2021-July 31, 2022 reporting period (“2022 EEO Report”), the 2022 EEO Report was not available in the Station’s OPIF. A copy of the 2022 EEO Report was uploaded to the OPIF promptly upon discovery of this omission.

---

<sup>1</sup> The license renewal application for the Station as filed on July 30, 2021 responded “no” to the OPIF Certification for the reasons set forth in the “WXFT-DT PIF Certification” attached as an exhibit to the application. Thus, there is no change to the “no” response to the OPIF Certification made in the initial application.
