

**Request for Special Temporary Authority
Board of Education of the City of Atlanta
WABE(FM), Atlanta, GA
Facility ID No. 3538**

The licensee of WABE(FM) hereby requests Special Temporary Authority to continue to operate WABE(FM) from its licensed facility at approximately 50% reduced power due to technical issues with the station's main transmission equipment.

In the last several months, WABE(FM)'s operations have been alternating between (1) full licensed power at the station's authorized auxiliary facility (File No. BXMLED-20121016ABE) and (2) reduced power from its main transmitter while conducting troubleshooting and repair efforts. However, the licensee has determined that the station's main transmitter must be replaced.

A new replacement transmitter has been ordered and the licensee has decided to continue to operate WABE(FM) from the faulty main transmitter at approximately 50% reduced power until the replacement transmitter arrives and can be installed.
