

SPECIAL TEMPORARY AUTHORITY EXTENSION

W233AH, Monticello NY (FIN 81836)

August 2023

SUMMARY

Licensee Radio Catskill requests the extension of its current special temporary authority for a period of no more than 180 days to operate translator W233AH at a location, power level and height other than licensed.

Radio Catskill lost the lease on its licensed location in June 2021 and continues to actively seek a new permanent location and/or new operator for W233AH.

On August 4, 2023, Radio Catskill filed an application (0000218955) to transfer the W233AH license to a new owner who intends to expeditiously file for a new permanent location for this translator.

The extension of STA operation will serve the public interest by allowing W233AH to remain on the air for the listeners of Monticello until that sale is completed and the new owner can restore licensed operation.
