

SUBSTITUTION OF A NON-DIRECTIONAL ANTENNA

The KTXS-TV license applicant, Sinclair Media Licensee, LLC, is substituting a new Dielectric non-directional elliptically polarized antenna, a Dielectric model TFU-33ETTVP-R O6, for its authorized antenna, a non-directional horizontally polarized Dielectric model TFU-24GTH(C). The substitute antenna will maintain the authorized antenna height Above Ground Level of 317.8 meters and a Height Above Average Terrain of 439.3. All other parameters will remain unchanged.
