Matt,

We sent some detail about the Media-Flo antenna last week to Tom Rigg. Was this helpful in resolving the issues with the unknown antenna on this tower preventing our install?

Good Afternoon,

It is a structural issue that Everest is working to resolve.

Thanks,
 Matt

Matt,

Is the inability to install in Huntsville due to the outstanding question of whose antenna that was which is running into the building structure that your records show is empty? Or is this because there is still a question with structural due to abandoned equipment on the tower?
