

**Re: W242AX, (Facility ID No. 146140) Auburn, AL Request for Extension of STA File Number 0000213923**

**Engineering STA**

Auburn Network, Inc., hereby requests extension of the existing Engineering Special Temporary Authority (file number 0000213923) for Station W242AX (Facility ID 146140) Auburn, AL (the “Station”) to operate the Station with the facilities set forth in the STA 0000213923 granted on May 18, 2023, referencing BSTA-20210426AAG, subject to all the terms and conditions in the original STA authorization.

This Request will permit continuation of the STA facilities previously approved. The details of the prior filings are incorporated by reference in this request. As reflected in prior filings, due to loss of the licensed transmitter site, the Station must be relocated and the new site is the same location as two other translators owned by the licensee, Auburn Network, Inc. The licensee is unable to file an application for this facility due to a hold placed by the FCC’s General Counsel’s office. However, the Media Bureau has allowed facility changes for this via an STA until the matters are resolved. Further, as set forth in BSTA-20191220ACG, the initial STA was granted on a conditional basis by Letter of Albert Shuldiner of March 2, 2020, which Letter also provided in footnote 9 that any extensions granted will be subject to the same conditional basis. Accordingly, consistent with the above referenced Letter and including footnote 9, it is respectfully requested that this request for extension of the STA mirroring the prior STAs be approved on the same conditional basis to permit continuation of the Station’s service to the public.

For the foregoing reasons, Auburn Network, Inc. respectfully requests an extension of the STA, file number 0000213923, to continue to operate the Station as set forth above, subject to all the terms and conditions specified in the original STA authorization.

Auburn Network, Inc., hereby certifies that neither it, nor any party thereto, is subject to a denial of federal benefits that includes FCC benefits pursuant to Section 5301 of the *Anti-Drug Abuse Act of 1988*, 21 U.S.C. § 862.
