

Request to **Extend** Silent Special Temporary Authorization  
Radio License Holding CBC, LLC  
Station KNEK(AM), Washington, Louisiana

**KNEK(AM) Request to Extend Silent Special Temporary Authorization**

Radio License Holding CBC, LLC (“RLH-CBC”), the licensee of KNEK(AM), Washington, Louisiana, respectfully requests an extension of its Silent Special Temporary Authorization (“STA”), pursuant to Sections 73.1635 and 73.1740 of the FCC rules, due to persistent problems with its transmitter.

On May 12, 2023, Mr. Joesph Szczesny and Ms. Victoria McCauley, FCC, were notified that Station KNEK was experiencing significant transmitter problems and was off the air. Since then, RLH-CBC’s local engineer and its Corporate Director of Engineering have attempted unsuccessfully to locate parts to repair this 45-year-old transmitter. They are in the process of discussing other options with the corporate office and are awaiting a decision about how it chooses to move forward.

For this reason, RLH-CBC respectfully requests an extension of its silent STA. RLH-CBC is fully aware that it must get KNEK back on the air before May 3, 2024.
