Operations Certification

KKRP-LD is currently licensed to operate on Channel 21. As a low power television station, KKRP-LD was displaced from its channel by the grant of a rulemaking application for full power station KMYU(TV), St. George, UT, to move to Channel 21 in the same market (Rulemaking File Number 0000129216). After the KMYU(TV) channel change rulemaking request was granted, KKRP-LD (the “Station”) filed for Silent STA on December 9, 2021 (FCC File Number 0000177051) to avoid predicted interference from KMYU(TV).

Due to the delay in approval of KMYU(TV)’s channel change construction permit application (Modification File Number 0000151571), KKRP-LD resumed licensed operations on March 19, 2022 and the Commission was duly notified (FCC File Number 0000187007).
