EDUCATIONAL STATEMENT

New(LP)
Leesburg, Florida
Channel 240LP100 (95.9 MHz)

Ember 911, Inc. ("E911") is an Illinois non-profit corporation and a Florida non-profit foreign corporation, established in Florida since March 28, 2016. E911 has been locally established with their current headquarters at 312 S. 2nd St, Leesburg, FL, since 2019. The corporation will be moving their headquarters to the transmitter and studio location, 103 Rosefield Av, Leesburg, Florida with this construction permit.

E911 has been working with working and teaching individuals with Autism since 2008. Pursuant to §73.503(a), E911 proposes to use the station to advance their organization's educational program through outreach and over-the-air public instruction to the general public regarding the awareness of Autism with a focus on reaching students of Beacon College, a special needs college in Leesburg, which has a significant student body within the spectrum. The station will be used to provide a great extracurricular learning opportunity for students that the college does not offer.

Instructional programming will include teaching individuals with Autism on how to better understand their situational surroundings including emergency situations and to improve safer interaction skills with first responders and other individuals they may come into contact with. The station will also utilize music as a part of their instructional program as music is a big part of the lives of many with Autism and to do so in a non-traditional way. E911 is partnering with a local recording studio located in the same building as the proposed radio station so students can record and then have an outlet for their music, helping them improve their technical and communication skills.
