

Chris Mansfield  
Mass Comm Program Coordinator  
4647 Stone Ave.  
Sioux City, IA. 51106

12/11/23

To Whom It May Concern:

This letter should serve as our justification for LPFM license application for Facility ID #788206.

We wish to use the LPFM station as an expansion of our current streaming station, Comet Radio, which has been in operation since 2013. The pedagogical importance of college radio has a historical and contemporary basis for our student body. Western Iowa Tech students and the greater community of Sioux City will benefit from broadcasting another voice featuring community-based content. Examples could include contemporary student programming, Western Iowa Tech Community College sporting events, and campus news and entertainment. The growth of our streaming format to a broadcast format would serve the public interest for years to come.

Western Iowa Tech has a diverse student body consisting of all types of socio-economic status, race, religion, and identity. The varied makeup of our community will be reflected in our programming.

Thanks for your consideration, it is our aspiration that you would grant our application license so we may continue to serve our students, and our community in new and exciting ways.

Chris Mansfield

A handwritten signature in dark blue ink, appearing to read 'Chris Mansfield', is written over a light blue horizontal line.
