

Educational Statement

Comunidad de Flemington, Inc. teaches the community the importance of watching, protecting and serving their neighbors, and to assist those that encounter challenges in their personal, physical and spiritual life.

Through the radio, our voice will amplify, to be able to reach a broader audience and allow more people to be more aware that we cannot have a safer and better community without each other.

The organization was formed on December 6, 2023 in the State of New Jersey.
